

INFECTIOUS DISEASE - ONCOLOGY - PHARMACOKINETICS RESIDENCY/FELLOWSHIP

**The State University of New York at Buffalo
School of Pharmacy and Pharmaceutical Sciences
Roswell Park Cancer Institute**

Unique opportunity for a residency/fellowship focusing on infectious diseases and oncology at Roswell Park Cancer Institute, ranked among the top 10 cancer centers in the U.S. Clinical practice opportunities include bone marrow transplant, hematologic and solid organ tumors, pediatrics, infectious diseases, pharmacokinetic/antibiotic streamlining consultations, ambulatory care, and others. The program provides the flexibility to be individualized based upon candidate interests and career goals. Experience may be obtained in Phase I-IV clinical studies, pharmacokinetic/pharmacodynamic research, protocol writing, grantsmanship, as well as opportunities for laboratory and animal research.

Position includes an appointment in the Department of Pharmacy Practice at The State University of New York at Buffalo, School of Pharmacy and Pharmaceutical Sciences. Ample opportunity exists for precepting Pharm.D. students, didactic teaching, and faculty committee appointments. Excellent opportunity for a candidate interested in a career in academia, research, or advanced clinical practice. Coursework is also available through the State University of New York, and through Roswell Park's Graduate Division in the biological sciences, biostatistics, and more.

Candidates are required to possess a Doctor of Pharmacy degree, and an interest in infectious diseases and oncology. To apply, a letter of interest, CV, and three (3) letters of recommendations should be sent to:

Patrick F. Smith, Pharm.D.
